It is to be recognised that ever more qualifications are being sought by our Clients to ensure that the people that we send in to them are fully qualified and professionally trained for the role to which they have been assigned.

All applicants are therefore encouraged to pursue a Fetac 5 Level of 8 modules in the career path they wish to pursue within the healthcare system.

Failure to achieve and qualify in a Fetac 5 Award will severely limit your ability to work for TLC Nursing Services and it is imperative that you achieve this qualification on or before 31st December 2011.

It is to your benefit to obtain this award, as it will provide you with more opportunities for gainful employment.

There are various places where you can register to enrol in a Fetac 5 course. We have an arrangement with the Central College Limerick whereby if we provide names, they will organise Fetac 5 courses

Take this opportunity while it exists, it is to your advantage.

I agree and affirm that by not obtaining a Fetac 5 Award (8 Modules) before 31st December 2011 I am limiting my opportunity of gainful employment.
